Global Fund mechanisms and opportunities for financing the scale up of TPT in Countries

Eliud Wandwalo
TB Team Lead
Global Fund

01 July, 2019
Global Fund is investing in Tuberculosis in **> 100 countries** globally in the current funding cycle (2017 – 2019)

Allocation amount = **> US$ 1.85 b**
Catalytic investment = **US$ 190 m**
Portfolio optimization, disease split etc.

Total GF TB investment (2017-2019): **> US$ 2 billion**

---

**TB & TB/HIV GRANT BUDGET BY MODULE IN % (NFM 2)**

- **TB Care and Prevention**: 33%
- **MDR-TB**: 25%
- **Prog. Mgt**: 23%
- **TB/HIV**: 4%
- **RSSH**: 15%

---

**TB Care & Prevention module budget (in USD m): NFM 1 vs 2 budgets**

- **NFM 1 budget (2015 - 2017)**: 779
- **NFM 2 budget (2018 - 2020)**: 824

---

*Data is from TB-only and TB/HIV grants*

---

Note: The budget of cross-cutting modules (RSSH and Program Mgt.) from TB/HIV grants also includes activities which are focused on HIV only. The true proportion of the budgets for these modules will be lower and that of TB C & P higher.

---

Data source: Global Fund database (June 2019)
Global Fund investments: Impact and Results (2017)

- 27 million lives saved through the Global Fund partnership
- 17.5 million people on antiretroviral therapy for HIV in 2017
- 5 million people with TB treated
- 102,000 people with DR-TB on treatment
- 343,000 HIV-positive patients on ART during TB treatment
- 97,500 children in contact with TB patients received preventive therapy
- 3,180 people with XDR-TB treated

*Results are in countries where the Global Fund invests*
GF Funding Requests based on grant allocations – TB and HIV technical partners should support countries to include TPT scale-up plans in their FRs.

Joint Strategic Initiative on TB Preventive Therapy – proposed for the next funding cycle (TB & HIV).

Financing of Technical Assistance to support countries in the planning and implementation of interventions aligned with the current WHO LTBI guidelines including operational research.

Increased advocacy (with TB and HIV stakeholders) for increased domestic and donor funding for TPT.

Additional resources through TB portfolio optimization and in-country optimization – e.g. US$ 1.55 million approved as ‘Award Now’ for Vietnam and Cambodia in the last 7 months. Additional US$ 3 million as ‘award later’.

Continuation of the TB Catalytic investment / Matching Funds / Strategic Initiative to find missing people with TB.
WE CAN PREVENT HIV, TB & MALARIA.

US$14 BILLION WILL HELP:
• SAVE 16 MILLION LIVES
• AVERT 234 MILLION CASES
• IMPROVE GLOBAL HEALTH SECURITY

STEP UP THE FIGHT

Thank you
